## SPECIFICATIONS

<b>Powertrain</b>	Siemens PM synchronous motor, 700V, 160 kW Transmission management Siemens ELFA
<b>Power supply</b>	Li-ion batteries (capacity individually configured) Plug-in charging CCS/Combo Fast Charging, 200 A
<b>Axles and suspension</b>	Independent front wheels suspension with antiroll bar Low portal rear axle with antiroll bar Pneumatic suspension, electronically controlled (ECAS) Kneeling Manual rise and lowering of suspension high 275/70 R22.5" tyres
<b>Braking system</b>	EBS3 (electronic braking system) with ABS, ASR (Acceleration slip regulation) and disk brakes Regenerative braking
<b>Chassis</b>	Ladder type chassis, welded construction, of high-strength steel Aluminium body panelling
<b>Body</b>	Aluminium side and roof structures Front and rear in glassfiber reinforced plastic (GFRP) with high-strength steel structure
<b>Lights</b>	Full-LED interior and exterior lighting
<b>Passengers area</b>	Capacity up to 88 passengers (depending on configuration)
<b>Doors</b>	2 or 3 double-wing doors, electro-pneumatic drive Ramp on door 2 (manual or electric), optional on door 1 Panoramic windows in tempered safety glass, single glazing
<b>Windows</b>	Laminated windscreen Driver's window with integrated resistance
<b>Climatization</b>	Electric HVAC system with air conditioning, roof mounted Independent driver's climatization Optional auxiliary heater (electric or biodiesel)
<b>Driver's place</b>	Instrument panel tiltable with steering column Configurable central display (TFT color display) Pneumatic driver's seat Heated exterior rearview mirrors, electrically adjustable Sunblind on windscreen, electric
